**Office of Legislative Counsel**

**Friday - 10 April 1959**

1. John Warrington in the office of Senator Styles Bridges (R., N. H. ) telephoned stating that Senator Bridges would like some information on the Russian lunik. Mr. Warrington was advised that I would look into the matter and be back in touch with him. [redacted] in OSI has been requested to pull together some appropriate material.
2. Talked with Fred Schuldt in the Bureau of the Budget on the proposed executive order under the Atomic Energy Act. He confirmed that DOD and AEC had advised that the section dealing with CIA should be removed. Under the circumstances, it was indicated to him that probably we would be seeking a separate executive order although it appeared to be more sensible to do this in one package. Mr. Schuldt is to discuss the matter further with the Bureau of the Budget General Counsel, Mr. Focke, and advise their thoughts.
3. Copies of the Director's speech to the Edison Electric Institute, New Orleans, La., on 8 April 1959, were sent to selected Congressmen. See attached list.
4. Talked with Mrs. Goodwin in Congressman Harold D. Conley's office (D., N. C.) about debriefing the Congressman early next week. She said she would check with him and call us back. However, she was sure that he would be pleased to see us. An OCR liaison man familiar with the IPU will assist in the debriefing.
5. Talked with Spencer Platt, Bureau of the Budget, concerning S. 1489, Senator Kenneth B. Keating's bill to provide for an "appeal" to the courts in cases involving suspension and/or separation of civilian employees. Platt said the Bureau has not developed a posture on these security bills but that he would be glad to talk with us further when we had prepared a draft report.
